## “We Enjoyed Grace and Emotion During the Visit to Korea!”

### The 50 Malaysian and Thai Hearing-impaired Members' Visit to Manmin

The hearing-impaired believers experienced the love and power of God on their visit to Manmin and came to have greater spiritual faith and bigger hope for Heaven. ■ Photo 1: Arrival at Incheon International Airport on August 3, 2012 ■ Photo 2: During the service interpreted into Korean, Malaysian, and Thai sign languages ■ Photo 3: At the Camp Fire Worship & Praise of 2012 Manmin Men's and Women's Missions' Summer Retreat

On August 3, 2012, the 50 hearing-impaired members from Malaysia and Thailand arrived at Manmin Central Church. They received grace through Senior Pastor Dr. Jaerock Lee's messages that were interpreted into Korean, Malaysian, and Thai sign languages and they also prayed together in Daniel Prayer Meeting via Internet. In the meantime, they visited Manmin that is the scene of the powerful works.

Pastor Jeonghun Ji, the group leader said the members came to have greater longing when they experienced various healing works in the healing meetings conducted in Manmin's branch churches for the Hearing-impaired in Thailand and Malaysia in May, 2012 with Pastor Sooyeol Cho (Guidance Pastor of

Hearing-impaired Mission in Manmin Central Church). He added that God had showed them rainbows every day from early July to early August in 2012, which caused them to have high expectation for this visit to Korea.

While attending services like the Sunday Services and Friday All-night Service, and Daniel Prayer Meeting firsthand, which they had attended via Internet abroad, they were able to engrave the Word of God even deeper in their hearts in the midst of amazement.

Additionally, they participated in the 2012 Manmin Men's and Women's Missions' Summer Retreat that was held for three days beginning August 6. Together with the members from the Central Church, branch

churches from around Korea and 23 other countries, they experienced the spiritual realm in the seminars that were held under the theme of “Spirit,” the ‘Fullness of the Holy Spirit’ Prayer Meeting, Athletic Meet, and Camp Fire Worship & Praise.

They also paid a visit to Muan Sweet Water Site of Muan Manmin Church located in Jeonnam Province where salty sea water was changed into sweet drinkable water by Dr. Lee's prayer. With their heart desires, they submerged themselves in the Muan Sweet Water Pool and saw various wonders in the sky.

The Senior Deaconess' Association's and the church members' cordial welcomes made them happy. They also received much grace in the times of conversation with Mrs. Boknim Lee, President of Manmin Prayer Center and Pastor Soojin Lee, the Consolidated Great Parish Pastor. Happy smiles remained on their faces throughout their whole time in Korea. Their pure passion for faith moved other church members' hearts.

A 43-year-old Thai brother said, “By listening to Dr. Lee's message through Internet I realized homosexuality is a sin. So I turned away from it and gained true life. When I entered the sanctuary of Manmin, which I had longed to see in person, I could sense the holy and sanctified fragrance that was there. It struck me that I also should try to become sanctified. I felt the love of Father God enough throughout all the programs.”

A 28-year-old Malaysian sister stated, “I became full of grace attending Daniel Prayer Meeting in person. I had dragonflies come to me and they sat on my finger at the retreat. When my spiritual eyes opened, I also saw many jewels in the Muan Sweet Water Pool. This visit to Manmin allowed for me to make up my mind to run towards sanctification.”

## Dr. Jaerock Lee's Bible Study Book for Students Korean Version of *Keys to Studying Well* Published

On August 31 in 2012, a new Bible study book for students was published in Korean. This book was condensed from Dr. Lee's book *Keys to Studying Well* with the purpose of helping Christian students set a specific dream or goal and become an outstanding person even in the world for the glory of God.

The book presents ways to use the power of faith and the help of the Holy Spirit in study. That is, in the book are ways to improve IQ by cultivating the heart into the truth, dominating circumstances, enhancing concentration, and taking advantage of feeling. It also gives principles of studying with the heart.

“The fear of the LORD is the beginning of wisdom, and the knowledge of the Holy One is understanding.” (Proverbs 9:10)

# Love Is Patient

“Love is patient, love is kind and is not jealous; love does not brag and is not arrogant.” (1 Corinthians 13:4)

A quick-tempered person usually makes many mistakes due to his impatience. Some Christians can't remain patient. Consequently, they are unable to wait with faith. For instance, they feel discouraged when they've been changed less than they expected though they fasted and prayed fervently to cast away sin and evil. Or they feel nervous or exhausted when nothing happened although they gave offerings and prayed to receive a certain answer.

In order to achieve spiritual love written in 1 Corinthians Chapter 13 as well as to receive answers to our prayers, we need to be patient. Then, we can bear beautiful fruits.

## 1. What is patient love?

1 Corinthians 13:4 and the continuing verses talk about the 15 characteristics of spiritual love. It says “Love is patient” as the first characteristic. What does it mean spiritually? It means we should be patient with various afflictions that come to us while trying to love others and be lovingly patient with our selves.

Let's say someone is jealous of you and hates you though you haven't done anything wrong to him. You might want to avoid him and you might not want to even see him on the streets. When you listen to the Word of God that tells you to love even your enemy, you may consider how to love him but with anxiety. To achieve spiritual love, you must be patient with and love someone like the one in this situation. Even if someone speaks ill of you for no reason and hates you, you should control your heart and love him with patience.

This kind of love, namely, the love that is patient and endures all difficulties that comes to us when we try to obey the Word of God is ‘patient love’. But the patience in the Love Chapter includes smaller concepts of love than the love characterized in the nine fruits of the Holy Spirit. Patience as one of the nine fruits of the Holy Spirit is to be patient with everything in every circumstance for the kingdom of God and His righteousness whereas patience in the Love Chapter is applied to individuals as patience to love others.

## 2. The power of patient love

Matthew 5:44 reads, “But I say to you, love your enemies and pray for those who persecute you.” Here, ‘enemies’ refers to people who do great harm to you such that you harbor a deep grudge against them. Jesus who came to the Earth for sinners loved enemies and prayed for those who persecuted Him. But men mocked, despised, and abased Him who did only good things for them. However, Jesus still made an intercession to God for them, “Father, forgive them; for they do not know what they are doing” (Luke 22:34).

Jesus loved mankind with patience even though they'd become enemies toward God. As a result, the amazing work of salvation occurred. Anyone who believes the Lord and accepts Him as the Savior can

Senior Pastor Dr. Jaerock Lee

be set free from the bondage of the enemy devil and become God's child. The power of patient love is this great.

How long can you keep patient? Can you give patient love to those who speak ill of you for no reason and hate you? Or, do you find it difficult for you to endure even your spouse, husband, children, and brothers of faith although they are not enemies?

Matthew 5:39-40 reads, “But I say to you, do not resist an evil person; but whoever slaps you on your right cheek, turn the other to him also. If anyone wants to sue you and take your shirt, let him have your coat also.” How shameful it is to want to take even someone's shirt! The passage tells us to add more love to love even in such a case.

Today, many people can't endure it when someone endangers them or causes a little harm to them or their possessions. They may even bring a lawsuit against them. Even if the damage is attributed to mistakes of their own wife, husband, parents, or children, some of them bring charges against them. When you keep your patience with those who did harm to you, some people even think you are foolish. However, do we have to pay a person back the way the worldly people do? No, we don't. We must keep patient and act in goodness.

Some might say, “How can I be patient if I'm feeling so distressed and angry?” But we can do it when we have spiritual faith and love. This is because we have the love and faith of Father God who endured sinners and had mercy on them even though they crucified His only begotten Son. If you believe you have received such love from God, you can forgive anybody who does harm to you no matter how great the harm is. There is nobody we can't love when we love the Lord who unsparingly gave His life.

## 3. To achieve spiritual patience

Some people force themselves to suppress hatred, hot-temper, and ill-feelings, but they explode when their maximum capacity of patience is surpassed. Others developed emotional disorders caused by anger

that was suppressed without expressing their feelings outwardly due to their introverted personalities.

But the kind of patience God wants us to have is to keep patient until the end without changing. In other words, it is patience that doesn't need the expression ‘patience’. It is not to pile up hatred and discomfort in our hearts, but to get rid of their fundamental roots and change them into mercy and love. This kind of patience is real patience in the spiritual sense.

It's not difficult to love even enemies when we have no evil and become full of spiritual love. Then, we won't make anyone our enemy and everybody will look lovely even if he/she does things that aren't understandable. We won't hate people because they have deficiencies or even if they hate us.

On the contrary, if we have untruths like hatred, arguments, jealousy, and envy, we will see others' shortcomings and hate them when they don't agree with us although they are really nice people. And if you are good at lying, you will think others also lie though they tell the truth.

Then, how many times do we have to keep patient with evil doers? Peter asked Jesus, “Lord, how often shall my brother sin against me and I forgive him? Up to seven times?” Jesus said to him, “I do not say to you, up to seven times, but up to seventy times seven” (Matthew 18:21-22).

Here, ‘seven’ is the number that symbolizes degree of perfectness, namely, it means you should forgive perfectly. It is boundless forgiveness and love. Of course, it's not easy to change your hatred into love overnight. But you should try hard to love without ceasing. Even when you have ill-feelings and anger, you have to hold them in first and try hard to get rid of them. Then, they will be changed into the truth and spiritual love will grow in you.

Sinful natures deep in your heart can be gotten rid of when you pray fervently in fullness of the Holy Spirit. You also need to endeavor to see others with love and treat them with goodness. As you do so, hatred in you will disappear and you will come to love others. When you have no ill-feelings and no one to hate, you will feel as happy as if you were in Heaven. Since you cast off all untruths and are filled with goodness and love, you don't have to be patient but you can just love everybody.

Men of goodness with no evil have nothing with which they must be patient. When they need patience with someone, they don't have to try to be patient but they can wait until he/she is changed. Do you think you need patience in Heaven? In Heaven are only love and goodness. There are no tears, no sorrow, no pain, and no evil. There will be nothing to hate, get angry at, and begrudge. But God explains that “Love is patient” so that people can understand love better.

Dear brothers and sisters, I pray in the name of the Lord by casting away every form of evil you will endure, love, and wait for your selves and evil men no matter how evil they are.

## The Confession of Faith

1. Manmin Central Church believes that the Bible is God-breathed Word that is perfect and flawless.
2. Manmin Central Church believes in the unity and the work of God the Trinity: God the Holy Father, God the Holy Son, and God the Holy Spirit.
3. Manmin Central Church believes that we are forgiven of our sins only by the redeeming blood of Jesus Christ.
4. Manmin Central Church believes in the resurrection and ascension of Jesus

- Christ, His Second Advent, the Millennium, and the eternal heaven.
5. Members of Manmin Central Church confess their faith through “The Apostles' Creed” each time they come together and believe in its content verbatim.  
“[God] Himself gives to all people life and breath and all things.”(Acts 17:25)  
“And there is salvation in no one else; for there is no other name under heaven that has been given among men by which we must be saved.”(Acts 4:12)

# Better Understanding of the VeriChip™

The VeriChip™ is one of the products that apply implantable RFID (Radio Frequency Identification) technology

The VeriChip is the name of the device owned by VeriTeQ Acquisition Corporation though it was invented by the VeriChip Corporation (known as the PositiveID Corporation). In January, 2012, the VeriTeQ Acquisition Corporation acquired the VeriChip implantable microchip and related technologies. The device is implantable within people with using RFID (Radio Frequency Identification) system.

‘RFID’ is the abbreviation of Radio Frequency Identification, and the technology has been already widely used in our lives such as transportation cards most Koreans use for public transportations like bus and subway.

Beginning January 1, 2013, Korean government will enforce the Animal Protection Law that requires all dog owners throughout all cities and districts with population of more than a hundred thousand to have pets to be implanted with RFID devices. Thus, it can be expected that the implantable RFID device in animals will soon be widely distributed.

Personal information can be obtained through the unique 16 digit number

VeriChip is a coined word with the combination of two words: ‘Verification’ that means examination or confirmation and ‘Chip’ which is a small piece of silicon that is a part of semiconductor. Once scanned by RFID reader, the VeriChip implanted in human body responds with a unique number. It is then linked with information about the user held in a database for identity verification, medical records access, and other uses. The VeriMed™ system seeing limited use the U.S. uses RFID human-implantable microchip that links to a web-based Personal Health Record. With the system, doctors can gain patients’ ID, medical history, and medical records.

Considering the Korean situation, each person’s unique number can be his/her resident registration number, and the RFID chip with the number may be implanted in the people. In October, 2004, VeriChip™ received the U.S. FDA (Food Drug Administration) approval for medical use. Until now, it was the only FDA-approved human-implantable

microchip among RFID products.

The VeriChip’s transponders are cylindrical, measuring 11.5mm in length and 2.1mm in diameter. There are a computer microchip (which is capable of storing more than 70 trillion unique numbers) that contains the unique 16 digit ID number assigned to the transponder and a radio antenna inside. The outside of the transponder is a soda lime glass that has been specially selected for good contacts with human cells, which could hardly allow the transponder to move around in the body once injected. It is recommended to inject the chip in the forearm using a special syringe after local anesthesia.

The RFID products implantable within animals have been produced by Avid ID in the U.S., Virbac in France, and Trovan in the U.K. as well as the VeriChip in the U.S. They have been available in the market. Additionally, the VeriChip Corporation has developed an implantable chip in animals that can track their locations via GPS (Global Positioning System). It obtained a patent on the chip by the U.S. Patent Office in 1999. This chip is available in the market for uses of tracking wild animals and managing livestock.

The U.S. healthcare reform bill includes the provision about an implantable device and the enforcement of the law in 2013

The reason why the VeriChip is becoming a social issue is because the U.S. healthcare reform bill requires the implantable chip to be used in people. This reform bill is aimed at supporting more than 32 million uninsured Americans by requiring health care coverage for all U.S. citizens and legal residents. But the bill specifically includes “a class II device that is implantable,” which stipulates the implantable RFID device in human bodies.

On Sunday March 21, 2010 the House of Representatives passed the healthcare bill and it was signed into law the following Tuesday by the U.S. President Barack Obama. It also says the law should go into effect “Not later than 36 months after the date of the enactment” which means not later than March 23 in 2013.

On December 13, 2010, a federal judge in Virginia declared the healthcare

law unconstitutional, claiming that the federal law’s requirement that citizens buy health insurance is unconstitutional. But the Supreme Court ruled that individual health insurance mandate is constitutional on a decision of 5 judges vs. 4 judges to uphold the law on June 28, 2012, which decided the law’s enforcement.

This chip can be used for a system that monitors and controls all people of all countries

The VeriChip has been already used in many countries. Mexico is using the VeriChip in their law enforcement organizations including the Mexican Attorney General in order to differentiate them from the drug cartels in accessing secure locations and documents. Some night clubs in Netherlands, Scotland, and Miami in the U.S. are promoting the implantation of the VeriChip to its customers for VIP’s easy access and payment. In those ways, it has been used for ID verification and e-commerce. It hasn’t been tested in a clinical trial in human, but its technology has been greatly developed such that it can provide tracking service.

Revelation 13:16-17 says, “And he causes all, the small and the great, and the rich and the poor, and the free men and the slaves, to be given a mark on their right hand or on their forehead, and he provides that no one will be able to buy or to sell, except the one who has the mark, either the name of the beast or the number of his name.” This tells us that the Antichrist will force all people of the whole world to receive the mark of the beast and monitor and control their economical and social activities all day and every day at the second half of the Seven-year Great Tribulation.

Of course, we’ve not yet come to know if the mark of the beast refers to the widely-used bar-code, the VeriChip system, or any other more highly developed form of technology. But we have to realize that this kind of system can be used to monitor and control the people of the whole world through the connection to a database of a super computer. If you understand it, you will realize how near the last hour is drawing. By doing so, we need to be quick to complete adorning ourselves as brides of the Lord.

I am a member of Heavenly Dance Team that is part of the Performing Arts Committee of Manmin Central Church. On June 21, 2012, I was practicing dance for the upcoming special performance. While I was dancing with a Korean traditional tambourine, I hit my nose with it.

At the moment, tears welled up and my nose ached. Blood came out of my nose. With tissue in my nostril, I received Dr. Jaerock Lee's recorded prayer on

## “Three Pieces of My Broken Nasal Bone Were Quickly Set Together by the Power of God the Creator”

Sister Jina Vin (Freshmen's Mission in College Mission)

Automatic Response Service. Right after the prayer, the blood stopped and pain was gone. To my amazement, I had no bruise and no pain at all.

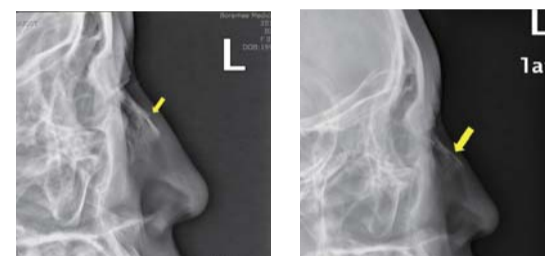

I went to the emergency room of the university hospital to have my nasal bone checked. The X-ray and CT scans showed that my nasal bone was broken into three pieces and the doctor told me that I needed an operation. He added I should get it under general anesthesia and after it I needed to put on a solid structure to support the bone for about a month and the structure would make it harder for me to breathe.

I had witnessed the power of God the Creator throughout my Christian life. Moreover, I didn't have any problem with my nose after the recorded prayer. My nose was a little swollen, but I believed that God the Healer would heal me completely. And I received Dr. Lee's prayer with faith. Next day, even the swelling subsided.

On July 3 in 2012, I danced in the special performance without any problem. I was too busy to visit hospital, and on July 27 in 2012, I went to hospital

for X-ray and CT scans. The result showed that my broken bone was set together and was becoming normal. Hallelujah!

God delighted in my faith and healed me with the power of God the Creator. Furthermore, He made my nose more prominent and pretty. I am thankful to Him. I give all thanks and glory to God and Senior Pastor who prayed for me with love.

▲ Before divine healing: Three pieces of her broken nasal bone  
▲ After divine healing: The pieces were set and together

## “Thank You, Lord for Guiding Me, Who Lived a Wild Life, to the Holy Way”

Seminary Student Brother Sriyanont Somchai (Surat Thani Manmin Church for the Hearing-impaired in Thailand)

I was born with hearing impairment to a Chinese father and an Indonesian mother. I had to undergo a lot of hardship growing up as a child of mixed-blood. Moreover, my father was involved with a lot of women and he wouldn't maintain a normal family situation. I had three step mothers and my biological mother was missing.

In such a situation, I didn't have anything to rely on and wandered to find my own shelter. But I ended up being a person just like my father without knowing it. I had attended church since I was 19, but I continued to live such a wild life because I didn't have true faith. I was notorious as a womanizer.

Meantime, I became acquainted with Pastor Jeonghun Ji, Vice Guidance Pastor of the Hearing-impaired Mission in Manmin Central Church and Missionary in Malaysia while working for the Deaf Association in Hat Yai, Thailand. In January, 2010, he talked to me about the holiness gospel and the powerful works that had occurred in Manmin Central Church.

And through Pastor Ji, I came to meet Brother Joseph Limbangpil who, as a seminary student, ministers to Hat Yai Manmin Church for the Hearing-impaired in Thailand. He kept talking to me about Dr. Jaerock Lee's sermons and his powerful works via video chatting. He said people can be healed of their diseases transcending space and time by receiving Dr. Lee's prayer for the sick with faith.

In April, 2010, I met Pastor Ji and Brother Joseph again. Joseph explained about Hell showing me Dr. Lee's book *Hell*. The book shocked me greatly, and then I cut myself off from fornication and made up my mind to become renewed. I repented of my past

wrongdoings praying and fasting for the first time in my life.

Afterwards, I attended the Hat Yai Manmin Church for the Hearing-impaired and gave a-meal fasting every day for two months and tried to live by the Word of God. Reading *The Message of the Cross* authored by Dr. Lee, I realized the providence embedded in salvation such as 'the reason why God placed the tree of knowledge of good and evil' and 'the reasons why Jesus is our only Savior.' The book brought change to my Christian life. I didn't cease to pray every night and my life, behavior, and words were changed.

In June, 2010 and in May, 2012, Pastor Sooyeol Cho from Manmin Central Church in Korea visited Thailand and preached about the living God with the handkerchief on which Dr. Lee had prayed (Acts 19:11-12). Many people gave glory to God with their healing testimonies. It was a great opportunity to increase my faith and I was led to receive the blessed duty of taking care of souls and spreading the gospel.

On August 3, 2012, I paid a second visit to Korea to participate in Manmin Men's and Women's Missions' Summer Retreat with other hearing-impaired believers from Thailand and Malaysia. On my first visit to Manmin in 2010, I could see at a glance that the church was full of God's power and the Lord's love.

At that time, I met Dr. Jaerock Lee for the first time and in my eyes he was a warm-hearted man with full of love. He was like a gentle father. My emotional pain caused by the fact that I had been abandoned by my parents was melted before him. And I came to be overwhelmed with joy and thanks because I realized God is my Father and I have Dr. Lee who let me feel Him.

The 2012 Summer Retreat was still full of grace and the truth. In particular, I experienced an amazing thing in the Muan Sweet Water Site where the salty seawater was changed into sweet drinkable water just as it had happened at Marah (Exodus 15:25). God opened my spiritual eyes and let me see beautiful jewels in Heaven.

I will go back to my country with the precious jewels in my heart. I will run with hope thinking of my future 'self' that becomes like a beautifully refined jewel in the love of Father God and the Lord. Hallelujah!
