Works of God's Power Were Verified Again In The 14th WCDN Russia International Christian Medical Conference

From October 20 and 21 in 2017, the 14th WCDN Russia International Conference was held in St. Petersburg, Russia. World Christian Doctors Network is made up of Christian doctors from all around the world who serve the same purpose—proving the power of God based on medical data.

The conference brought together approximately 400 doctors and medical professionals from thirteen countries including Russia, Korea, Poland, Spain, Israel, Belarus, and Bulgaria (Photos 2, 6, and 9), and each session was interpreted in English and Russian. The event kicked off with the local praise singer team's worship and praise. Each participating country was introduced, and welcome messages were delivered by Dr. Oleg Ostreiko, Chairman of Organizing Committee and Dr. Gilbert Chae, President of WCDN. The ministry of

Dr. Jaerock Lee, Founder and Board Chairman of WCDN was shown through a DVD presentation. It was followed by the first case presentation by Mrs. Elena Litvina of Russia who is a nurse and the Manager of the Organizing Committee. She demonstrated her own healing case of serious knee arthritis through the prayer of Dr. Lee (See her case on page 3).

Dr. Oleg Ostreiko, Chairman of Organizing Committee, reported the healing case of a brain tumor; then Dr. Luiza Muratova, WCDN Russia Director, a case of tuberculosis; Dr. Kyril Svilelov, Bulgaria, of strabismus; and Dr. Joonsung Kim, Korea, of complex fracture. Dr. Gilbert Chae, President of WCDN, gave lectures on the root of diseases and the flood of Noah. Dr. David Eu from Singapore, presented a lecture on Muan Sweet Water (Exodus 15:25).

Dr. Nikolai Iunchis, Vice Chairman of Organizing Committee testified to his visit to Muan Sweet Water Site where the salty water from the sea changed into sweet drinkable water by Dr. Lee's prayer. A host of doctors tasted the Muan Sweet Water and took it home with longing hearts for its use (photos 3 and 5).

On the second day, Dr. Vitaliy Fishberg gave a special lecture titled 'Heaven', and presentations by Dr. Vahe Buniatyan and Dr. Gilbert Chae were delivered on a case of healing of blindness and of appendicitis respectively (See page 4 for more details). Then, WCDN Poland Conference 2018 Organizing Committee members greeted on the stage and promised to meet again the next year (photo 8). The whole conference was wrapped up with the ceremony of conferring the appreciation plaque for Dr. Jaerock Lee (photo 4).

A presentation of particular noteworthiness in this conference was a special lecture on "The Root of Diseases" taken from Dr. Lee's book *God the Healer*. A myriad of questions followed the lecture such as those on how to keep the Sabbath properly and the relation between fear and diseases. Their fervor found in questions proved their spiritual thirst.

In addition, a video was shown concerning Noah's Flood that was produced based on Dr. Lee's Lectures on Genesis. The participants were very impressed and said that the explanation is very biblical and spiritual. They even asked for the video so that they can show it to people in their churches and hospitals.

Dr. Oleg Ostreiko, Chairman of Organizing Committee, said, "We Russian doctors needed to understand the cause

of diseases and spiritual healing. The lectures were a lot of help to us. Many doctors expressed their gratefulness for the messages." A Muslim doctor stated, "The powerful work of God was amazing! I came to realize the new spiritual world that I had never known!"

In the conference, Sound of Light Chorus from Performing Arts Committee of Manmin Central Church praised in the local language and danced traditional Russian dances. Their inspirational performance increased the grace and emotion of this conference (photo 1). At the entrance of the hall, Dr. Lee's books were displayed and drew many participants' attention. They showed their spiritual longing for the spiritual messages (photo 7). The news on this conference was reported several times by TBN Russia, the leading Christian TV in Russia.

Senior Pastor Dr. Jaerock Lee

How to Receive Complete Answer

“But for you who fear My name,
the sun of righteousness will rise
with healing in its wings;
and you will go forth and skip
about like calves from the stall”
(Malachi 4:2).

•••

In today's passage, “the sun of righteousness” refers to the Messiah our Lord. When God's children have diseases, if they repent of their sin in the name of the Lord and pray to God, God will heal the diseases with healing beam. The healing beam is invisible light that can heal any kind of disease for any person regardless of age and health condition. Moreover, it brings no negative side-effects. But as written, God gives His healing light to those who fear Him.

1. Those who fear God

Proverbs 8:13 reads, “The fear of the LORD is to hate evil; pride and arrogance and the evil way and the perverted mouth, I hate.” Those who truly fear God will naturally hate evil. If you love someone, you will not do something that the one you love hates and you will try to give the person joy and peace. The same applies to your relationship with God.

The God of love sacrificed His only begotten Son. He made His Son an atoning sacrifice and thereby opened the way to save sinners. If you feel this great love of God, you cannot help fearing God. You cannot do something that God hates. You will even cast away sin and evil that God hates.

But many people say they love God and fear Him, but they do not hate evil. They may think that they hate evil, but they still harbor evil,

look at what is evil, and show evil in words and actions. It means they do not really hate evil from the depths of their hearts. And, to that extent, they cannot say they love God and fear Him.

2. To receive complete answers

1) You should destroy the wall of sin against God.

God wants to give answers to whatever His children ask for, and to accomplish this, He gives them the word of the Bible. If we obey the words, our souls will prosper, everything will go well with us, and we will be healthy and prosperous in everything. Thus, if you have a problem that you ask God to solve, you should obey His words more earnestly.

Let's suppose you were drawn into a financial difficulty by falling to temptation through someone else. Then, you should not hate the person. You should rather hate your greed for money, your selfish motives and your desire to have what did not belong to you. You must realize that you had been deceived due to such attributes in your heart and that those things were the causes of being tempted. You also should give thanks because you found such evil elements in you. As long as you keep those evils in you, you cannot but fall into temptation someday again. So, to get rid of the evils, which are the fundamental causes, is the surest and wisest solution (James 1:14-15).

Exodus 15:26 reads, “And He said, ‘If you will give earnest heed to the voice of the LORD your God, and do what is right in His sight, and give ear to His commandments, and keep all His statutes, I will put none of the diseases on you which I have put on the Egyptians; for I, the LORD, am your healer.’” As said, anyone can be protected by God and be disease-free only if they live by the Word of God.

In other words, if you were not protected by Him, you should

realize that you had done something against His will (Isaiah 59:2). Therefore, to receive complete answers, the most important thing is to destroy the wall of sin that is standing between God and us. Furthermore, if we pile up deeds of faith and goodness that can please God, we can receive the answer more quickly.

God wants to give us the best things possible. As soon as we meet the measure that He set according to our own measure of faith, He gives answers to us. That is why new believers tend to receive answers quickly. God wants something more from those who have already experienced God's grace and have been believers for a long time. He wants them to have more goodness and show greater faith than before. It shows that God deems it most important for His children to live by the word of God and grow in their faith.

Therefore, if you want to receive an answer to your problem, you should see the problem by God's point of view. You shouldn't just want the immediate solution. But you have to think about how to resolve its fundamental cause. Then, you won't get nervous or become impatient while waiting for the answer. Rather you will feel thankful because you know that the time period is a time of blessing for you to change yourself into spirit.

2) You must not repeat building the wall of sin after you destroy it.

Some people are too impatient to get their answer. They habitually do the things that they have to do to receive answers, and ask why they are not receiving the answers. They offer up vowed-prayer in their own way, not following the way of God. And in the middle, they may get disappointed and disheartened. They may even complain and become resentful. It creates the higher wall of sin between them and God, so the answer gets farther away from them.

Then, they may repent and pray again. But if this cycle is repeated, they cannot receive the complete answer. Let's put this situation in this way. You had 10cm wall of sin against God. You prayed, fasted, and repented and thereby destroyed 5cm of it. The other 5cm is still remaining. It is not yet the time you can receive the complete answer, but you expect the answer to come. Because the answer you expected is not coming, you grumble without giving thanks and say, ‘Why can't I receive an answer?’ By doing so, you build the wall of sin higher again.

People usually remember very well what they have tried, but do not seem to remember what they have done wrong or errors in their words. So, they think the answer is coming late and what they are doing is not really working although they have been trying hard for a long time. We have to understand the most important things are the changes in our spiritual lives. We have to believe and trust in our faithful God without changing our mind along the way. Only when we think on every word of God in goodness and learn to be patient can we then receive complete answers more quickly. It is His justice by which when our souls prosper, everything goes well with us and we can be healthy. Thus, to the extent that we cultivate our heart into spirit, we will receive God's blessing more.

Dear brothers and sisters in Christ, God is faithful and does everything in justice and love. If you really fear Him, you need to remove everything that blocks you from God and must not repeat it. That is, you should hate and get rid of evil and replace it with goodness. When you show your love by doing so, God will give answer to whatever you ask.

I pray in the name of the Lord that by loving and fearing God you will receive complete answer and blessing and be healthy.

She was receiving Dr. Jaerock Lee's prayer.

Tuberculosis
Dr. Luiza Muratova, Russia

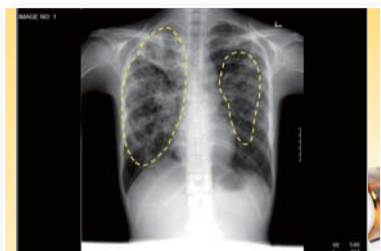

Praise Leader Rose Han felt exceptionally tired while she was preparing for a performance in November 2003. She was getting weaker and weaker, constantly had a dry cough, and lost weight. To see what was wrong she went to hospital. The test showed tuberculosis bacteria attacked all parts of her right lung and a large part of her left one. The doctor told her without immediate medical treatment the bacteria would move through the blood to other parts of the body affecting the brain, liver, or intestines. He added even with the treatment her lung would be damaged, which would make it impossible for her to sing.

When she coughed, she felt extreme stabbing pain as if her ribs were broken. She had difficulty in breathing. When she saw food, she vomited. She couldn't sleep because of high fever. She became so skinny. She even had to be isolated from her family and other people because TB bacteria are spread through air to affect other people. In her illness, loneliness and despair, she felt the value of being able to breathe, pray, and praise. She became so weak that she could not even walk.

she experienced amazing changes in her body. She was to eat food that she had not even wanted to see. She was strengthened day by day. She coughed less and less and finally stopped coughing. After Dr. Lee appeared in her dreams twice, her body recovered more rapidly.

In May 2005, she went to hospital and had a blood culture taken. In August, three months later, the result revealed that all TB bacteria had disappeared, and her lungs were clean. It was a miracle that was not understood in human thoughts. Hallelujah! She is now a world-renowned praise leader.

Before the prayer:
TB that destroys lung parenchyma is detected in both lungs.

After the prayer:
There is no sign of TB that had previously spread to both lungs.

It was during this time she was faced with the critical moment of death. Then, she prayed and asked God to give her one more opportunity to repay the love and grace of Dr. Jaerock Lee who prayed for her with tears. Her family and many church members were also praying for her. Because she believed Dr. Lee's power, she did not rely on any worldly methods and wanted to receive healing only through his prayer. She could overcome the critical moment after she received Dr. Lee's prayer and heard that he harbored her in his heart. On the day after that she heard all this,

Blindness
Dr. Vahe Buniatyan, Armenia

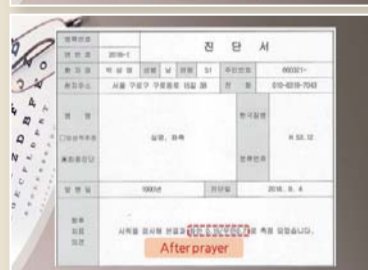

Brother Sangyoung Park, age 52, photo 1, had a car accident in 1990. It caused great damage to his brain, and he had major surgery. After the surgery, his left eye went completely blind. He could not even see light with the eye. Afterwards, he began to attend Manmin Central Church. In August 2016, he went to Manmin Summer Retreat to experience God's power and received Senior Pastor Dr. Jaerock Lee's prayer for the sick. He felt cooling on his eyes, and it became bright in both of his eyes. Finally, he came to see.

Brother Kekesuren, age 62, photo 2, lost the vision in his left eye little by little when his head was damaged in an accident. He eventually lost his vision completely. He was suffering in depression and distress. Afterwards, he became a member of Manmin and received the prayer of handkerchief on which Dr. Lee had prayed (Acts 19:11-12). Through the prayer, his eyesight improved from 0 to 0.03 in left and from 0.5 to 0.7 in right.

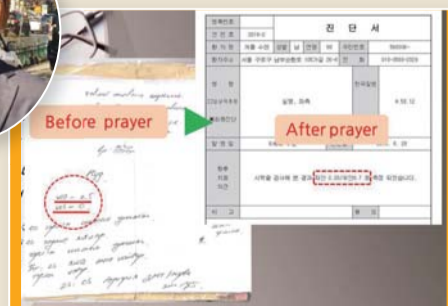

1

Before the prayer: The left eye had no optic sensation, which indicates blindness.
After the prayer: The eye has the vision of 0.15.

2

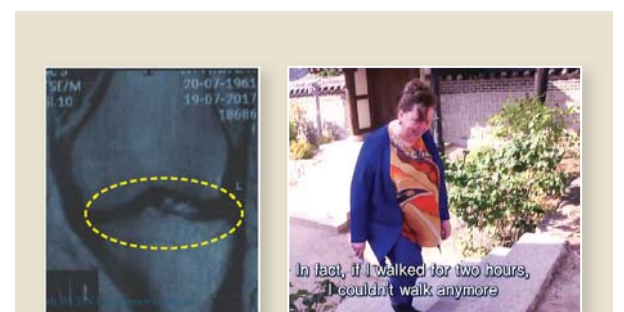

Before the prayer: The left eye vision was 0.
After the prayer: It is 0.03 now.

Knee Arthritis
Mrs. Elena Litvina, Russia

This is my testimony. One day, my knee was swollen and painful. The MRI scans revealed cartilage that was worn away and severe arthritis. The symptoms got worse, and I could not walk for more than two hours. But on my visit to Manmin Central Church in Korea, I received Dr. Jaerock Lee's prayer and my legs came to feel light. I felt no pain going up and down the stairs. The next day, all pain was gone, and the swelling also subsided. A year has passed since then, and I have no problem at all walking.

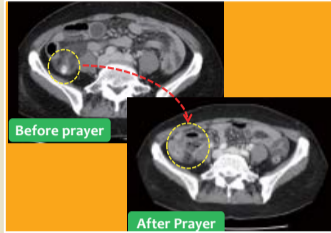

Before the prayer: Her cartilage was worn away and became very thin, and there was inflammation.
After the prayer: She can go up the stairs freely.

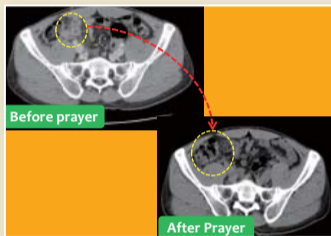

Father God Our Best Doctor!

“...I, the LORD, am your healer” (Exodus 15:26).

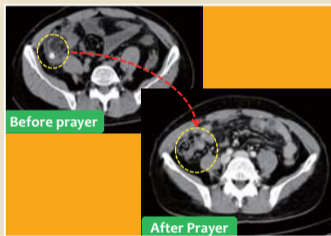

Under the name of WCDN (World Christian Doctors' Network), Christian doctors all around the world have cooperated to prove the authenticity of the Bible. Let's delve into the cases presented in the 14th International Christian Medical Conference in Russia.

Before the prayer: The calculus that causes appendicitis was found, and the part was inflamed much.
After the prayer: Enterolithiasis was gone, and swelling subsided.

Before the prayer: Appendix inflammation and swelling
After the prayer: Appendix became normal.

Before the prayer: The calculus of enterolithiasis that causes appendicitis was found, and the part was inflamed much.
After the prayer: Enterolithiasis was gone, and swelling subsided.

Acute appendicitis usually causes great pain, and the appendectomy is the only treatment. But there are many people who experienced God's healing of acute appendicitis without the surgery.

Deaconess Kyunghwa Lee, age 58, photo 1, had severe stomachache and continued to vomit. On May 30, 2010, she underwent a CT scan. It showed signs of appendicitis in her right lower abdomen. But she received the prayer of Dr. Jaerock Lee, and another CT scan done on June 6 showed no appendicitis and showed the improvement of prior inflammation.

Deaconess Youngju Kim, age 47, photo 2, also suffered from stomachache. The CT scan obtained on July 30, 2014 revealed that her appendix in her right lower abdomen was swollen due to inflammation. While suffering from serious pains, she repented before God and received Dr. Lee's prayer. The CT scans that followed demonstrated no symptom of appendicitis.

Acute Appendicitis Dr. Gilbert Chae, Korea

Deacon Myoungjin Shin, age 36, photo 3, had serious stomach pain for two days. His CT scan ordered on March 5 confirmed a stone or calculus in the right lower abdomen and inflammation around the part. It was a typical symptom of appendicitis. He felt nausea and vomited due to serious pain, but as he repented more, his symptoms improved. After he received Dr. Lee's prayer, no more sign of appendicitis was detected in his CT scan. Hallelujah!

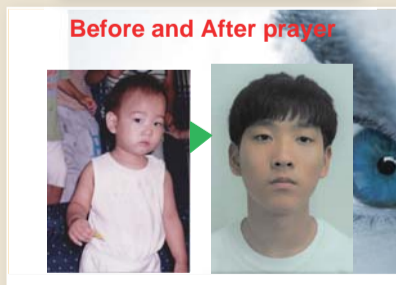

Strabismus Dr. Kiril Svilenov, Bulgaria

Brother Kyuchan Yeon, age 17, had congenital paralytic strabismus. He had to turn his head to the right to look at something, and his eyeballs shook so seriously that people around him could notice it. He heard from his doctor that the surgery for him would be very dangerous and he could not be guaranteed of its success.

One day, he made up his mind to receive healing from God. He offered

up vowed-prayer and deleted all files that God hates on his smartphone. And he received Dr. Jaerock Lee's prayer. After the prayer, he was healed of strabismus. He came to see everything straight clearly and his eyeballs no longer shake.

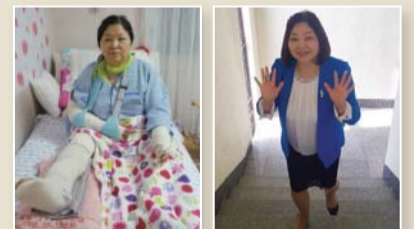

Before the prayer: Convergent strabismus was found in his left eye.
After the prayer: Both of his eyes are normal.

Complex Fracture Dr. Joonsung Kim, Korea

Senior Deaconess Jeomok Park, age 54, fell down the stairs on February 6, 2017. Her tibia, fibula, and ulna were fractured. The doctor told her that it was a serious injury so even if she received several surgeries the bones would undergo deformity or shortening. It could have resulted in her becoming disabled. However, on the day of the accident, she received Dr. Jaerock

Before the prayer:
The complex fracture of tibia, fibula, and ulna

After the prayer:
The bones are connected by the power of re-creation without the surgery.

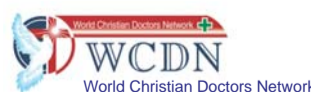

Lee's prayer and she left hospital. Now she can walk freely without crutches.
