People Who Met God

*When you express your heart
with your lips, you'll be trusted more deeply.
Now say to the other, "Thank you,"
"I am sorry," or "I love you."*

I was healed of acute cerebral infarction and acute myocardial infarction!

Deacon Younghyun Lee | 66, Miryang City, Gyeongnam Province, Korea

On September 3, 2024, I came across a minor collision on the way to work. When I got to the office and drank water, my hands were shaking and I could not keep my balance. I was sent to the emergency room and the examination results showed that I had an acute cerebral infarction, which was serious. The doctor advised me to go to a larger hospital.

At the second hospital, I was diagnosed with acute myocardial infarction. I was admitted to the intensive care unit and took cerebral aortic stent insertion for blood vessel

expansion. And I was diagnosed with sepsis, renal failure, and various inflammations and my condition worsened. I fell into shock due to high liver somatic index and was put on a ventilator.

I had been unconscious for four weeks, but I vividly remember extraordinary experiences. In visions, the messengers of hell appeared and tried to drag me away, but I struggled against them trembling in fear three times.

My wife fasted and prayed for me. She gave sin offerings on my behalf and repented that I had not prayed nor worshipped in spirit and truth. On September 27, she attended a Divine Healing Meeting and recorded Speaker Pastor Soojin Lee's prayer for the sick. Three days later she came to me and played it on my ears.

After receiving that prayer, on October 2, I was able to take off my ventilator and to breathe on my own. On October 4, I was moved from the

intensive care unit to a general ward. However, I was still attached to a few medical devices and the symptoms of left hemiplegia remained.

On October 13, my wife came to Pastor Miyoung Lee, who was invited as the speaker to the 37th anniversary service of Miryang Manmin Church and asked her to pray for me. Pastor Miyoung Lee prayed for me over the phone, and the next day, several hoses were removed, I was able to eat porridge, and my left hemiplegia also improved. On October 27, my wife attended the 31st anniversary service of Busan Manmin Church and Pastor Mikyung Lee laid her hand on my photo and prayed for me.

I had been told that I would have to receive a long-term treatment in hospital, but I recovered to normal even more quickly than expected and was discharged from hospital on October 29. Since then, I have been giving my full tithe and living a renewed life in Christ.

All thanks and glory be to God!

I was healed of my 14-year irritable bowel syndrome!

Senior Deaconess Seung-eun Kim | 57, Sindaebang-dong, Dongjak-gu, Seoul, Korea

In 2010, I had a great difficulty and went through a lot of stress. After that, I suffered irritable bowel syndrome with diarrhea, and had to live on only porridge for more than two weeks every month.

Whenever I went out, I was always nervous and had to make a preparation for unexpected things. I had to carry extra clothes. At a rally or retreat, when the others enjoyed at a buffet restaurant, I often had to eat porridge. And when I attended a church event, I always had to sit near the bathroom.

In 2018 I was faced with even a greater difficulty than before and my symptoms got worse. None of my medicines that had been prescribed by the gastroenterologist worked any longer. Afterwards, I realized that my symptoms were closely related to my sensitive personality and earnestly prayed to God to change my personality.

In 2023, I preregistered for a bimonthly Divine Healing Meeting as a patient, and whenever I attended the meeting, I received Speaker Pastor Soojin Lee's prayer for the sick with faith. I continued to offer a 21-day vowed prayer and on April 17, 2024, I began to offer a 100-day vowed prayer in preparation of Manmin Summer Retreat and harbored an earnest longing for healing.

Meanwhile, Senior Pastor invited chief leaders from female associations of district leaders, sub-district leaders and cell leaders to Gethsemane Prayer House. I strongly desired to be healed there and prayed for my healing with all my heart.

That day finally came on May 10. I ate porridge for breakfast and went to the prayer house. A delicious beef barbecue was given for lunch, but I could not even think of eating it because I was afraid of getting an

upset stomach. But I had a wonderful time with my beloved Senior Pastor and fellow workers in the space full of peace and joy, and the love of the late Jaerock Lee, Pastor Emeritus, and at the meeting's end Senior Pastor prayed for the blessing of all in attendance.

On the way back home, I had dinner at a restaurant along with my coworkers. To my surprise, I had no fear of any food for the first time and enjoyed even spicy food with peace and happiness. Since then, no symptom occurred to me at all.

I was so much overjoyed, but I didn't say about it and patiently waited until I became assured of my healing. And 8 months passed and I am still normal without any symptom. I can enjoy any kind of food and have a happy time with my family, friends, and those around me.

I no longer feel nervous when I go out, and I live a daily life freely and comfortably. Hallelujah!

Recently I came across a box of anti-diarrheal medicine that had been left unused while cleaning the house. I said to myself, "Oh, I was once involved in this medicine!" and made up my mind to give testimony of this grace God had given to me.

I give all thanks and glory to Father God who completely healed me of my 14-year irritable bowel syndrome.

Divine Healing Meeting

**A special opportunity for your health and happiness!
Overflowing healing works and answers
by the fiery work of the Holy Spirit!
Come and see new miracle and new life!**

**At 11:00 PM on Friday, March 28, 2025
At Manmin Central Church
By Senior Pastor Soojin Lee**

It is broadcast live on GCN TV! (www.gcntv.org)

I was healed of BPPV and frozen shoulder!

Senior Deaconess Soonjoo Yoo | 55, Cheolsan-dong, Gwangmyeong City, Gyeong-gi Province, Korea

In early 2022, I received the COVID-19 vaccine for the third time. A few days later, I started feeling nauseous and had backache. I rushed to the bathroom feeling like acute indigestion, and collapsed there.

I was carried to the room by my husband. I could hardly even breathe and thought I was going to die. I received the later pastor Jaerock Lee's prayer for the sick recorded on a telephonic automatic response system until the day dawned. It was a Sunday and I tried to go to church. But I couldn't because things seemed to be spinning, and barely listened to the message on GCN TV, closing my eyes.

Next day I went to the hospital and was diagnosed with intestinal obstruction. The doctor added it

caused me to have BPPV (benign paroxysmal positional vertigo), in which the stones that keep the center of the cochlea in the ear do not function properly. He said BPPV gets better and worse repeatedly and it is difficult to completely cure.

The next day, a Vowed Daniel Prayer Meeting began and, in the meeting, I knelt down and prayed earnestly to repent of my wrongdoings. I found myself having got involved in my business even during prayer meetings and worship services, and in performing my duties, and I tearfully repented of it.

In January 2023, I suddenly developed the frozen left shoulder, and it was so painful and sore as if an iron was piercing through it. When I lowered my head, the

symptom was more severe.

On January 28, 2023, I attended a Divine Healing Meeting and received Speaker Pastor Soojin Lee's prayer for the sick with faith. Then, I gradually recovered and was able to come to work every two days in February. Since then, I have faithfully fulfilled my duty as praise leader of women's mission and as a singer of senior deaconess' association.

I received the late Pastor Jaerock Lee's prayer for the sick' recorded on a telephonic automatic response system every day, and felt the love of Father God who intervened and supervised my life so that I could repent, turn back, and change. I shed thankful tears while driving to work, and miraculously, my symptoms of BPPV and frozen shoulder began to improve.

When I attended a Divine Healing Meeting in March and May 2023 and received Speaker Pastor Soojin Lee's prayer for the sick, I was able to bow my head and raise my arms freely. There was no symptom of BPPV and frozen shoulder. For the following one year and a half, I have no symptom at all and get assured of complete healing. Hallelujah!

After being completely healed of BPPV, which is said to be difficult to cure, I have been happily faithful to my God-given duties, including vice president of the second women's mission in 2024. I give glory to Father God who cured me.

Why Jesus, the Son of God, was whipped and bleeding?

Before the crucifixion, the Roman soldiers flogged Jesus all over His body with a whip with sharp lead pieces attached to it. Every time it flogged His body, His flesh was torn apart, blood came out, and bones were exposed. However, Jesus did not try to avoid as prophesied in Isaiah 50:6, "I gave My back to those who strike Me."

Then why did Jesus, the Son of God, receive such harsh whippings and bleed? Why did God allow it?

Jesus was pierced through and crushed for our transgressions and sins. He was scourged and shed His blood so that we could have peace and be free from all kinds of diseases (Isaiah 53:5).

Matthew 9 shows that when Jesus healed a paralytic lying on a bed, He first resolved the problem of the man's sin, saying, "Your sins are forgiven." Afterwards, He said, "Get up, pick up your bed and go home."

And John 5 tells that after Jesus healed a man who had been sick for 38 years, He said, "Behold, you have become well; do not sin anymore, so that nothing worse happens to you." So, the problem of sin must be solved to be released from diseases, and there must be the shedding of blood for the forgiveness of sin (Leviticus 17:11).

In Old Testament times, when anyone sinned, they should slaughter an animal and offer the sacrifice with

*"For you know the grace
of our Lord Jesus Christ,
that though He was rich,
yet for your sake He became poor,
that you through His poverty
might become rich."
(2 Corinthians 8:9)*

its blood for the forgiveness of sin. But, Jesus the Son of God, who came to this earth in the flesh, offered His body as atoning sacrifice and shed His blameless and spotless blood, which has the power to forgive sins and to cleanse us from sin. No more sacrifice is needed for the forgiveness of sin because all our sins in the past, present, and in the future were forgiven through His blameless blood.

Matthew 8:17 says, "This was to fulfill what was spoken through Isaiah the prophet: He Himself took our infirmities and carried away our diseases." Therefore, anyone who knows why Jesus was whipped and bled and believes in Him has no reason to suffer from infirmities or diseases. 1 Peter 2:24 also says, "for by His wounds you were healed." This phrase uses the past tense "You were healed" because Jesus solved the problem of our sins.

Why do some believers in Jesus

suffer from diseases? It is because they don't do what is right in the eyes of God (Exodus 15:26).

Suppose your child was hit by a schoolmate and came back home with a scar on the cheek. Then, some of you may say, "Why were you always hit? If you're hit once, you should hit back the other twice or three times." Some others may even go to the schoolmate's parents and fight against them, so much upset and angry.

But, the Scripture says, "but whoever slaps you on your right cheek, turn the other to him also." God tells us to love even our enemies and be at peace with everyone. What is right in God's eyes is so much different from what is right in human eyes. If we love God, it is not difficult to practice His words.

You will not be sick if you do the righteousness of God. Even if you get sick, God the Healer will heal you of your sickness when you discover what is not right in God's eyes and sincerely repent of it. You can be completely healed of any kind of disease by the precious blood of Jesus Christ.

If you confess with your lips that God is omnipotent and omniscient but depend on the worldly methods and rush to the hospital when you get sick, this tells that you do not believe God is almighty. God will not be pleased with it.
